

In a rare collaboration between public and private sectors, the City of Los Angeles Police Department (LAPD) has partnered with Pelican Products to develop the Pelican 7060 LED as the standard issue tactical/patrol flashlight for all its officers.

The Pelican 7060 LED light employs a revolutionary dual switch technology that allows the light to be activated by either a body-mounted patrol switch or a tail-mounted tactical switch. The dual switches, which include a momentary mode and high/strobe/medium/low beams, allows the user to grip the light in several positions and still control activation. In addition, the 7060 is self programmable. This allows the individual user to custom tailor the various modes to their liking. The light incorporates a rechargeable Lithium-Ion battery for maximum brightness and is also lightweight compared to standard batteries.

Battery, desk/dash charger, and multi-regional power supply included.

- Built Pelican tough
- Super bright LED beam
- Unconditional Lifetime Guarantee of Excellence
- Lithium Ion Rechargeable Battery

SPECS

SIZES

Length	8.65 in (22 cm)
--------	-----------------

LIGHT SPECIFICATIONS

Lamp Type	LED
-----------	-----

POWER

Rechargeable	Yes
Charge Time	5 hrs
Battery Quantity	1
Battery Size	18650
Batteries Included	Yes
Volts	3.7 V
Battery Type	Lithium-Ion

SWITCH & MODES

Light Modes	High / Strobe / Medium / Low
Switch Type	3-Way Side and Tail Switches

WEIGHT

Weight With Batteries	10.4 oz (294.83 g)
Weight No Batteries	8.2 oz (232.47 g)
Weight	1.6 oz (45.36 g)

MATERIALS

Body Material	Xenoy
Shroud Material	Xenoy
Lens Material	Polycarbonate (PC)
O Ring Material	EPDM
